A LOOK INSIDE

From introduction to dialogue

Real classes and visits to production settings offer an introduction to the educational life of the college.

Introductory session of a short welding course, 18 July 2025.

Visit to a production enterprise, 11 December 2025.

Possible areas for collaboration

- **Teacher-to-teacher exchange**

  Teaching methods and approaches to practical learning.

- **Curriculum dialogue**

  Training content and the skills required in each occupation.

- **Links with industry**

  Ways for learners to understand real production environments.

These are topics for discussion, not claims of active international projects or completed student mobility.
